Thanks to all those who reviewed for *Journal of Negative Results in Biomedicine* in 2014

Bjorn R Olsen* and Bent Brachvogel

Contributing reviewers

A peer-reviewed journal would not survive without the generous time and insightful comments of the reviewers, whose efforts often go unrecognized. Although final decisions are always editorial, they are greatly facilitated by the deeper technical knowledge, scientific insights, understanding of social consequences, and passion that reviewers bring to our deliberations. For these reasons, the Editor-in-Chief and Managing Editor of the journal warmly thank the reviewers whose comments helped to shape *Journal of Negative Results in Biomedicine*, for their invaluable assistance with review of manuscripts for the journal in Volume 13 (2014).
